Next steps

1. The Respondent is notified of the Notice of Arbitration and has the time limits set by the Rules & Procedures v4.0 to answer and to nominate where applicable.
2. The Secretariat confirms the track and sends a written estimate of the administrative fee and the tribunal advance from the schedule in force.
3. Advances on costs are requested from the parties and split provisionally, without deciding who finally pays.

4. Registration is an administrative step. It is not a decision that a valid arbitration agreement exists; that is for the tribunal.
